

WIVAM 2026 | Warsaw International Vascular Meeting

for Medical and PhD Students

17 October 2026 · Main Auditorium, Medical University of Warsaw

PROGRAMME

8:15	Registration
8:30	Welcome address
8:35	Prof. Piotr Myrcha <i>Modern Techniques in Vascular Surgery</i> Opening lecture · 15 min
8:50	INTERNATIONAL SCIENTIFIC SESSION 1 Panel: Artūras Mackevičius, Jerzy Głowiński
8:50–8:55	Jakub Kalisz Double-Barrel Technique: A Solution for Graft Thrombosis and Bridge to Further Treatment – A Case Report
8:55–9:00	Michał Spzoz Aneurysm Rupture Caught Red-Handed?! Analysis of Serial Computed Tomography Angiography – Case Report
9:00–9:05	Sara Kędzierska-Bielowiec Will Perivascular Adipose Tissue Tell Us the Fate of Abdominal Aortic Aneurysm? Clinical Investigation in Post-Endovascular Aneurysm Repair Surveillance
9:05–9:10	Kamila Bury Is Leriche Syndrome a Contraindication for Kidney Transplantation?
9:10–9:15	Franciszek Kuklinski “Ruptured Abdominal Aortic Lesion in a Patient With Staphylococcus aureus Bacteremia: A Challenging Endovascular Case”
9:15 – 9:20	Łukasz Stypulkowski “Synchronous giant bilateral common femoral artery aneurysms with right-sided rupture”

9:20- 9:25	Maciej Chlabicz Stentgraft as an effective alternative to the conventional method for treating carotid artery injuries
9:25-9:30	<i>Discussion</i>
9:30	HUNGARIAN SESSION · Semmelweis University <i>Panel: Péter Sótónyi, João Rocha-Neves, Piotr Myrcha</i>
9:30–9:45	Prof. Péter Sótónyi <i>Innovation in Vascular Imaging: Digital Variance Angiography in Clinical Practice</i>
9:45–9:50	Gergely Kovács Multiscale Mechanics of Cryopreserved Human Arterial Allografts: A One-Year Follow-Up Study
9:50–9:55	Martin Orbán-Rokszin Histopathological, Radiomorphological, Clinical and Laboratory Factors Associated with Abdominal Aortic Aneurysm Diameter: A Cross-Sectional Study
9:55–10:00	Anna Luca Szily The Role of Inflammatory and Autoimmune Processes in the Development of Abdominal Aortic Aneurysms
10:00–10:05	Melissa Pawin-On Brinning Elevated Autoimmune Inflammation Markers and Perioperative Risk in Patients with Carotid Artery Stenosis: Findings from a Newly Established Carotid Plaque Biobank
10:05–10:15	<i>Discussion</i>
10:15	<i>Coffee break · 15 min</i>
10:30-10:45	Prof. Jerzy Głowiński How CERAB changed vascular surgery?
10:45	INTERNATIONAL SCIENTIFIC SESSION 2 <i>Panel: Izabela Taranta, Tomasz Ostrowski</i>
10:45–10:50	Karolina Krysińska Reversal of Dialysis Dependence and Advanced Heart Failure After Renal Artery Stenting in Pickering Syndrome
10:50–10:55	Marta Domińczak-Kokot Chylous Leak to the Neck and Right-Sided Chylothorax After Total Thyroidectomy with Group IV Neck Dissection in a Patient with Aberrant Drainage of the Thoracic Duct
10:55–11:00	Jan Krakowian When an Accidental Finding During a Chest X-Ray Becomes a Prelude to an Intricate Clinical Challenge
11:00–11:05	Paulina Lelek The First Computed Tomography-Guided Cryoablation of a Desmoid Tumor Performed in Poland
11:05–11:10	Zofia Michałowicz Delayed Left External Iliac Artery Dissection After Simultaneous Pancreas–Kidney Transplantation: Case Report
11:10–11:25	<i>Discussion</i>
11:25	LITHUANIAN SESSION · Vilnius University <i>Panel: Artūras Mackevičius, Péter Sótónyi, Piotr Myrcha</i>
11:25–11:40	Prof. Artūras Mackevičius Ophthalmic artery-open window to carotid artery surgery success

11:40–11:45	Kipras Jauniškis From Refractory to Responsive: Innovations in the Treatment of Complex Vascular Malformations
11:45–11:50	Austėja Račytė Occult Aortic Sac Enlargement after Endovascular Aortic Aneurysm Repair
11:50–11:55	Gabija Žymantaitė The Impact of Latency and Force on Performance in an Endovascular Simulation Task: Implications for Robotic Telesurgery
11:55–12:00	Augustė Melaikaitė Pedal Acceleration Time and Limb-Related Outcomes: A Systematic Review and Primary Study Results
12:00–12:10	<i>Discussion</i>
12:10	<i>Coffee break · 20 min</i>
12:30	Invited lecture <i>Speaker to be announced</i> 15 min
12:45	INTERNATIONAL SCIENTIFIC SESSION 3 <i>5 presentations × 5 min · discussion 15 min</i> Panel: Jerzy Głowiński, Tomasz Ostrowski
12:45–12:50	Aleksandra Koźmińska Spinal Dural Arteriovenous Fistula as a Rare Cause of Lower Limb Weakness in the Differential Diagnosis of Myelopathy: A Case Report
12:50–12:55	Karina Wieteska Baker's Cyst as a Rare Cause of Acute Lower Limb Ischemia
12:55–13:00	Shariqua Tasnim Khan Long-Term Multidisciplinary Management of an Extensive Cervicofacial Venous Malformation with Pharyngolaryngeal Involvement and Complex Airway Complications: A 14-Year Case Report
13:00–13:05	Ysabel Tyendezwa Alcohol Leads to a Broken Heart: A Case Report on Emergency TEVAR with Coverage of the Left Subclavian Artery Without Revascularisation in Blunt Traumatic Aortic Injury
13:05–13:10	Helena Szostak An Unexpected Cause of Claudication: Popliteal Artery Entrapment Syndrome in a Middle-Aged Patient
13:10–13:25	<i>Discussion</i>
13:30	<i>Lunch break · 30 min</i>
14:00	PORTUGUESE SESSION · University of Porto <i>Invited lecture · 4 presentations × 5 min · discussion 15 min</i> Panel: João Rocha-Neves, Artūras Mackevičius, Piotr Myrcha
14:00–14:15	Prof. João Rocha-Neves Leriche Revisited: Rethinking Aortoiliac Disease in the Endovascular Era
14:15–14:20	Tiago Rodrigues-Guimarães Meta-analysis of platelet-rich plasma for venous ulcers: Clinical efficacy and complications
14:20–14:25	Maria Antónia Rocha-Melo-Sousa IL-6 and Surgical Outcomes in Carotid Endarterectomy: A Systematic Review
14:25–14:50	<i>Discussion</i>

14:50	INTERNATIONAL SCIENTIFIC SESSION 4 <i>5 presentations × 5 min · discussion 20 min</i> Panel: Jerzy Głowiński, Piotr Zydlewski
14:50–14:55	Mila Lecluyse Beyond Traditional Surgery: A Retrospective Analysis of Real-World Management of Adult Vascular Malformations
14:55–15:00	Hema Varsha Pokala Differentiating Post-Stenotic Dilation from True Aneurysm: Why Accurate Diagnosis Dictates Management Strategy in Subclavian Artery Interventions: A Case Study
15:00–15:05	Julia Tatarzynska Recurrence of a Giant Intra-Peritoneal Lymphatic Malformation Two Decades After Complete Radiological Response to Systemic Therapy: A Case Report
15:05–15:10	Aleksandra Božović Traumatic Abdominal Aortic Injury: Stent vs Laparotomy Approach
15:10–15:15	Kaja Srokosz Atypical Acute Mesenteric Ischemia in a 95-Year-Old Female: Emergency Hybrid Revascularization of Celiac Trunk and Superior Mesenteric Artery Stenosis
15:15–15:35	<i>Discussion</i>
15:45	AWARD CEREMONY AND CLOSING OF THE MEETING
